

20 November 1962

MEMORANDUM FOR: AD/OSA

SUBJECT : Project [REDACTED]

25X1A

25X1A

On 19 November highest authority again reindorsed the [REDACTED] operations at the earliest possible time. Stressed need for minimum delay in processing and read-out of material so that information could be available both U. S. and [REDACTED] as soon as possible. I informed DCI of plans to process in [REDACTED] which should reduce the delay. I believe everything is under control, but please keep in mind that we should spare no effort to expedite all parts of the operation.
